CME Accreditation

North Shore-Long Island Jewish Health System is accredited by the Accreditation Council for Continuing Medical Education to sponsor continuing medical education for physicians.

North Shore-Long Island Jewish Health System designates this continuing medical education activity for a maximum of **11 AMA PRA Category 1 Credits**. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Faculty Disclosure Policy

North Shore-Long Island Jewish Health System relies upon faculty participants in its CME programs to provide educational information that is objective and as free of bias as possible. In this spirit, and in accordance with the guidelines of the program sponsor, faculty participants are expected to indicate any commercial relationship that might be perceived as a real or apparent conflict of interest.

We would like to thank our financial supporters. These include the Feinstein Institute for Medical Research, the National Institute of Mental Health, and industry partners. Funding for this conference was made possible (in part) by (R13 MH090652) from the National Institute of Mental Health. The views expressed in written conference materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services; nor does mention by trade names, commercial practices, or organizations imply endorsement by the U.S. Government"

ABOUT THE PROGRAM

T*The annual Pharmacogenetics in Psychiatry meeting has provided a forum for the presentation and discussion of new developments in the field of psychiatric pharmacogenetics. Previous meetings have been highlighted by discussion of topics including: prediction of clinical response to antipsychotic and antidepressant drugs; genes associated with the development of adverse side effects; novel statistical approaches; and most recently, the implication of genome-wide association (GWAS) approaches for pharmacogenetics. Moreover, we have brought together investigators working in diverse areas of research, from molecular geneticists to clinical trial investigators, from academia and industry, in order to engender true interdisciplinary approaches to the problem of variation in clinical response to psychotropic drugs. It is our hope that each participant will come away from this meeting with an appreciation of the breadth of this emerging field.*

Join us for the
Poster Session & Reception
Friday evening, April 15, 2011
5:30-7:30 pm

Financial Ballroom, Section 3
The New York Marriott Downtown

**THE EIGHTH ANNUAL
PHARMACOGENETICS IN PSYCHIATRY MEETING**

Friday & Saturday April 17 & 18, 2009 1:00 PM
Rust Auditorium • North Shore University Hospital

REGISTRATION FEE:
